## SUMMARY

I'm a BCA graduate with a solid foundation in programming and a strong passion for front-end development. Successfully completed a front-end development internship at IME Pay, where I gained hands-on experience building responsive and dynamic web applications using HTML, CSS, JavaScript, React, and Next.js. I'm also comfortable working with Figma — either understanding a design or developing a fast prototype. I'm interested in writing clean, clear code and creating smooth, intuitive experiences. I'm always looking for opportunities to learn, grow my skills, and deliver impact on impactful projects.
